### **Data Processing Patents Available on the Ocean Tomo Bid-Ask™ Market**

Ocean Tomo Bid-Ask™ Market patent portfolio auction of 38 US and Chinese patents and applications related data processing technology.

CHICAGO, IL (June 17, 2019) Ocean Tomo Transactions, LLC will auction a portfolio of 38 published patents and applications related to data processing technology.

The technology in Ocean Tomo Bid-Ask Market patent auction [lot 74](#) covers methods for automatically acquiring conceptual knowledge from unstructured text data, and for building powerful and effective applications that are far beyond the capabilities of conventional methods including most of the current-stage machine-learning methods. Natural language processing techniques provide a new framework for discovering the relation between linguistic structure and information structure.

Other patents in this lot also provide for building highly effective text analysis and document search/management products. The methods are based upon many years of research in how the human language carries information and how users digest information encoded in text data. Claim coverage includes user interface functionalities enabling topic-highlighting and search functionality, features commonly used in web and enterprise data products.
